

Volumes in the U.S. Treasury Market

March 4, 2019

Volumes in the U.S. Treasury market are up in the first few months of 2019, and as [Greenwich Associates data](#) shows, so too is competition among the electronic trading venues. Kevin McPartland had the opportunity to speak with Jill Malandrino of Nasdaq's TradeTalks about [what's going on in the U.S. Treasury market today](#), the Libor transition and how we see the trading landscape evolving throughout 2019.

The data reported in this document reflect solely the views reported to Greenwich Associates by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Greenwich Associates compiles the data received, conducts statistical analysis and reviews for presentation purposes in order to produce the final results. Unless otherwise indicated, any opinions or market observations made are strictly our own.
