

Key Trends in Digital Banking Channels

Wholesale Commercial and Corporate Banking

November 5, 2019

Executive Summary:

More than ever, the story of commercial banking is the story of technology.

The arrival and adoption of new technologies is changing the industry at an unprecedented pace. As a result, the only way to understand where commercial banking is heading in the future is to understand the technology innovations emerging today.

Every year, Greenwich Associates interviews thousands of companies about their banks and spends hundreds of hours testing the technology platforms of leading banks around the world.

To help our clients keep up with the technologies driving the market, we break down our comprehensive analysis of digital banking into four simple categories in which banks can benchmark their own offerings, and where companies can assess the functions and features their current banks are providing.

In this Greenwich Report, we outline the key digital banking channel trends of 2019. In the coming year, these tech trends will have an important role in bank selection, client experience and leadership positioning. Success in these areas will shape the direction of the competitive landscape in the years and decades to come.

business performance.

Our suite of analytics and insights encompass all key performance metrics and drivers: market share, revenue performance, client relationship share and quality, operational excellence, return on equity, behavioral drivers, and industry evolution.

The Document is not an investment analysis or research and is not subject to regulatory or legal obligations on the production of, or content of, investment analysis or research.

The data contained in the Document is based upon a particular bank's scope, which reflects a bank's data submission, business structure, and sales revenue Reporting methodology. As a result, any data contained in the Document may not be directly comparable to data presented to another bank. For franchise benchmarking, Crisil Coalition Greenwich has implemented equal ranking logic on aggregate results i.e., when

sales revenues are within 5% of at least one competitor ahead, a tie is shown and designated by = (where actual ranks are shown). Entity level data has no equal ranking logic implemented and therefore, on occasion, the differences between rank bands can be very close mathematically.

The data in this Document may reflect the views reported to Crisil Coalition Greenwich by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Crisil Coalition Greenwich compiles the data received, conducts statistical analysis and reviews for presentation purposes to produce the final results.
