

# Emerging Trends in Sustainable Investing

Best Practices and Wildcards for Institutions

September 28, 2023

Executive Summary:

This report presents the complete results of a special Coalition Greenwich study on sustainable investing. In Q1 and Q2 2023, Coalition Greenwich interviewed 143 pension funds and endowments and foundations (E&Fs) in North America and Europe about sustainable investing. From the results of that research, we identified a series of factors that are influencing the evolution of sustainable investing around the world.

These factors, which we examine in detail, include emerging best practices such as the full integration of sustainability into institutional investment processes and portfolios, the growing expectation for investment returns on sustainable investments to meet or beat assetclass benchmarks, an increasing awareness and commitment to screen out greenwashing, and the broad use of thematic strategies to enhance both investment performance and impact.

The research results also identify two key variables that could slow the future growth of sustainable investing: a lack of consensus on how to measure impact and increasing regulatory uncertainty.

## Methodology:

From March through April 2023, Coalition Greenwich conducted 143 telephone and online interviews targeting corporate pensions, public pensions and endowments and foundations based in North America and Europe to examine overall trends of investor attitudes on key aspects of sustainable investing and identify differing perspectives and approaches within it.

The study that this report is based on was commissioned by AGF Investments and conducted by Coalition Greenwich, a division of CRISIL.

This Document may contain analysis of commercial data relating to revenues, productivity and headcount of financial services organisations (together with any other commercial information set out in the Document). The Document may also include statements, estimates and projections with respect to the anticipated future performance of certain companies and as to the market for those companies' products and services.

The Document does not constitute (or purport to constitute) an accurate or complete representation of past or future activities of the businesses or companies considered in it but rather is designed to only highlight the trends. This Document is not (and does not purport to be) a comprehensive Document on the financial state of any business or company. The Document represents the views of Crisil Coalition Greenwich as on the date of the Document and Crisil Coalition Greenwich has no obligation to update or change it in the light of new or additional information or changed circumstances after submission of the Document.

This Document is not (and does not purport to be) a credit assessment or investment advice and should not form basis of any lending, investment or credit decision. This Document does not constitute nor form part of an offer or invitation to subscribe for, underwrite or purchase securities in any company. Nor should this Document, or any part of it, form the basis to be relied upon in any way in connection with any contract relating to any securities. The Document is not an investment analysis or research and is not subject to regulatory or legal obligations on the production of, or content of, investment analysis or research.

The data contained in the Document is based upon a particular bank's scope, which reflects a bank's data submission, business structure, and sales revenue Reporting methodology. As a result, any data contained in the Document may not be directly comparable to data presented to another bank. For franchise benchmarking, Crisil Coalition Greenwich has implemented equal ranking logic on aggregate results i.e., when sales revenues are within 5% of at least one competitor ahead, a tie is shown and designated by = (where actual ranks are shown). Entity level data has no equal ranking logic implemented and therefore, on occasion, the differences between rank bands can be very close mathematically.

The data in this Document may reflect the views reported to Crisil Coalition Greenwich by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Crisil Coalition Greenwich compiles the data received, conducts statistical analysis and reviews for presentation purposes to produce the final results.
