

Global Buy-Side Compliance and Surveillance

Innovation as the Competitive Differentiator

September 17, 2024

Executive Summary:

Demands have increased for compliance and risk professionals with the explosion of market and communications data in recent years. As a result, Coalition Greenwich, in collaboration with Bloomberg L.P., has launched an inaugural global compliance study. This robust study highlights how professionals' needs are being met in light of changing market dynamics by uncovering trends in technological innovation and investment at buy-side institutions. While challenges remain, different remediation paths are explored and discussed, helping risk and compliance leaders prepare for the future.

Methodology:

Between October 2023 and January 2024, Coalition Greenwich gathered insights from senior front-, middle- and back-office professionals spread across a total of 84 business, risk, compliance, legal, and technology roles. Respondents hailed from asset management firms, hedge funds and other buy-side institutions in the U.S., U.K., Europe, and Asia. Questions explored how risk and compliance professionals' needs are being met in light of changing market dynamics by uncovering trends in technological innovation and investment at buy-side institutions.

The Document is not an investment analysis or research and is not subject to regulatory or legal obligations on the production of, or content of, investment analysis or research.

The data contained in the Document is based upon a particular bank's scope, which reflects a bank's data submission, business structure, and sales revenue Reporting methodology. As a result, any data contained in the Document may not be directly comparable to data presented to another bank. For franchise benchmarking, Crisil Coalition Greenwich has implemented equal ranking logic on aggregate results i.e., when sales revenues are within 5% of at least one competitor ahead, a tie is shown and designated by = (where actual ranks are shown). Entity level data has no equal ranking logic implemented and therefore, on occasion, the differences between rank bands can be very close mathematically.

The data in this Document may reflect the views reported to Crisil Coalition Greenwich by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Crisil Coalition Greenwich compiles the data received, conducts statistical analysis and reviews for presentation purposes to produce the final results.
