

# Corporate Banking: Electronic Banking Progress Report

May 13, 2015

## Executive Summary:

Based on its annual Online Services Benchmarking program, Greenwich Associates examines the eight characteristics that define "Best-of-Breed" online banking platforms.

Using data gathered through hundreds of corporate e-banking users combined with "road-testing" the Internet platforms of major global and regional banks and non-banks, the strengths and opportunities for development are explored.

In this Greenwich Report we will:

1. Identify the new features and functionality that are defining Best-of-Breed e-banking platforms in 2015.
2. Assess the banking industry's progress in delivering functionality identified as critical to the corporate treasury function.
3. Inform companies about what they can and should expect from their providers, both today and in the years to come.

## Methodology:

*Every year, Greenwich Associates conducts extensive research with corporate executives around the world about the banks they use for general corporate banking, treasury and cash management, and a range of other banking services. As part of that research, we ask executives about the electronic banking platforms (Internet- and file-based) that they use and have them rate the platforms in terms of overall quality. We also "road-test" the Internet platforms of major global and regional banks and non-banks to document the strengths and opportunities for development.*

*The data reported in this document reflect solely the views reported to Greenwich Associates by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Greenwich Associates compiles the data received, conducts statistical analysis and reviews for presentation purposes in order to produce the final results. Unless otherwise indicated, any opinions or market observations made are strictly our own.*

This Document is prepared by Crisil Coalition Greenwich, which is a part of Crisil Ltd, a company of S&P Global. All rights reserved. This Document may contain analysis of commercial data relating to revenues, productivity and headcount of financial services organisations (together with any other commercial information set out in the Document). The Document may also include statements, estimates and projections with respect to the anticipated future performance of certain companies and as to the market for those companies' products and services.

The Document does not constitute (or purport to constitute) an accurate or complete representation of past or future activities of the businesses or companies considered in it but rather is designed to only highlight the

trends. This Document is not (and does not purport to be) a comprehensive Document on the financial state of any business or company. The Document represents the views of Crisil Coalition Greenwich as on the date of the Document and Crisil Coalition Greenwich has no obligation to update or change it in the light of new or additional information or changed circumstances after submission of the Document.

This Document is not (and does not purport to be) a credit assessment or investment advice and should not form basis of any lending, investment or credit decision. This Document does not constitute nor form part of an offer or invitation to subscribe for, underwrite or purchase securities in any company. Nor should this Document, or any part of it, form the basis to be relied upon in any way in connection with any contract relating to any securities. The Document is not an investment analysis or research and is not subject to regulatory or legal obligations on the production of, or content of, investment analysis or research.

The data contained in the Document is based upon a particular bank's scope, which reflects a bank's data submission, business structure, and sales revenue Reporting methodology. As a result, any data contained in the Document may not be directly comparable to data presented to another bank. For franchise benchmarking, Crisil Coalition Greenwich has implemented equal ranking logic on aggregate results i.e., when sales revenues are within 5% of at least one competitor ahead, a tie is shown and designated by = (where actual ranks are shown). Entity level data has no equal ranking logic implemented and therefore, on occasion, the differences between rank bands can be very close mathematically.

The data in this Document may reflect the views reported to Crisil Coalition Greenwich by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Crisil Coalition Greenwich compiles the data received, conducts statistical analysis and reviews for presentation purposes to produce the final results.
