

Treasury Flash Crash - One Year Later

October 14, 2015

We recently published research examining how the market for trading US Treasuries has changed and is likely to change in the coming years ([U.S. Treasury Trading: The Intersection of Liquidity Makers and Takers](#)). But while market participants continue to evolve, regulators don't seem poised to enact much if any change. I recently spoke with Jim Jockle from Numerix about these dynamics and what we learned from the US Treasury "Flash Crash" of 2014. [Please Click Here to View the Video](#)

The data reported in this document reflect solely the views reported to Greenwich Associates by the research participants. Interviewees may be asked about their use of and demand for financial products and services and about investment practices in relevant financial markets. Greenwich Associates compiles the data received, conducts statistical analysis and reviews for presentation purposes in order to produce the final results. Unless otherwise indicated, any opinions or market observations made are strictly our own.
